[a] The figures for 1841, as published in *Gazette*, are full of errors which cannot now be corrected, and should therefore be used with great caution.

[b] The figures (Persons) for 1847 include 2246 military, women, and children; also 3739 male convicts on public works.

[c] ,, ,, 1851 ,, 953 ,, ,, ,, ,, 568 convicts, sex not distinguished.

[d] ,, ,, 1857 ,, 630 ,, ,, ,,

[e] The discrepancy in the number of brick and stone houses in 1870 and 1881 arises from a large number of residents in country districts failing to give definite descriptions.

[a] In this table deaths occurring in the Public Hospitals in Hobart and Launceston are referred to the district in which the cause of death originated. [b] This District embraces the New Town Charitable Institution, in which aged persons from all parts of the State are assembled. [c] Deaths occurring at sea or on board foreign ships in port have not been included [d] Preventable causes embrace deaths at all ages from all causes excepting those classified as due to "Senility" or "Old Age." [e] Corrected for changes in age-distribution. [f] Indicates deaths under 1 year per 1000 births. [g] Computed in accordance with the recommendation of the Conference of Statisticians at Hobart, January, 1902, viz.—That the Age-groups be—Under 1 year, 1 to 20 years, 20 to 40 years, 40 to 60 years, 60 years and over; and that the Population of Sweden (Census 1890) be taken as the Standard. [h] The detailed rates for these divisions are omitted, as the fluctuations between single years when numbers are small give unsatisfactory results.

TRADES, MANUFACTORIES, AND OTHER INDUSTRIES.

WITH regard to the following industries, the aggregates are alone given, as it would not be desirable to localise information to Districts, thereby in many cases unnecessarily disclosing the extent of the business of private individuals or companies, as the case may be.

Unfortunately, the figures given by some establishments in respect of capital invested vary greatly year by year; such figures can therefore be only regarded as rough approximates.

* Exclusive of Fruit Depôts connected with Jam Manufactories. The various Manufactories are all situate in Hobart or its vicinity. ‡ Based on declared average price of Exports per lb. ‖ These figures in the absence of any reliable knowledge of Stocks in hand at the close of each year merely indicate the balance between local Manufactories and Imports, and the figures relating to Exports. ¶ Probably the difference of the balances of Stock on hand may reconcile the anomalies of local consumption of Jams and Pulp in each of the separate years. The true measure of local consumption, free from such disturbance would average about £2,798·10 for the five years. [a] Included fruit-drying establishments. § As per returns urnished.

† "Consumable Wealth."—The annual value of Consumable Wealth produced in Tasmania during the year 1908-9—by the combined agency of local labour, skill, and all other animate and inanimate auxiliary instruments of productive physical energy—is estimated to approximate to £8,500,000. This is equivalent to £107 per annum per breadwinner [includes capitalists, entrepreneurs, and wage-earners]. At 3½ per cent this annual contribution of Consumable Wealth represents an absolute present capital value of £242,857,000. It is estimated that about one-seventh of the annual value is absorbed in the maintenance, renewal, and fresh creation of the necessary auxiliary tools and instruments of production and transport. The remaining six-sevenths are absorbed by breadwinners and their dependents, representing a sum of £7,284,560, or 5s. 10½d. per breadwinner per working day. From an economist's point of view each breadwinner may be rightly regarded as one of the most essential instruments of production. If therefore we regard £92, being the average annual effective claim of each breadwinner unit, it follows that each of the latter possesses an asset which, calculated at 3½ per cent., represents a capital value of £2628.

* Represents 56·79 per cent. of the total Public Debt of the six States for all purposes (£257,612,063.) † On lines open for traffic only.

‡ This Profit on Working (£6,202,153) not only exceeds the Interest Burden on borrowed money invested in State Railways (£146,289,021) by £997,977, but itself represents and covers 68·90 per cent of Interest Burden and Sinking Funds on the total Public Debt of the Six States for *all purposes*. § Not including tramways.

‖ Contributions to Redemptions and Sinking Funds not included. ¶ Sinking Funds and Redemptions included in Queensland figures.

The advantages of working the 15,139 miles of Railway to the Six States, regarded from an economic and industrial point of view, are estimated to represent a present capital value of £895,258,513, *i.e.*, 3·47 times greater than the present capital value of the whole of the existing Public Debt of the Six States of the Commonwealth.

COMMONWEALTH AND STATE FINANCE.

STATEMENT SHOWING THE RELATIVE MAGNITUDE OF COMMONWEALTH AND STATE FUNCTIONS AND OBLIGATIONS.

AN adequate comprehension of the financial problem connected with the present method of returning a "Federal Surplus" to the several States cannot successfully be arrived at by anyone who does not attempt to realise the magnitude of the duties, functions, and obligations which remain to be discharged by the States and Commonwealth respectively.

The best index of the relative importance of the duties, functions, and obligations that remain to be discharged by the several States, as compared with the functions and obligations transferred or otherwise deputed to the Commonwealth, is to take the respective cost of government functions as a gauge; thus—

Gross and Net Cost of Functions and Obligations of States and Commonwealth respectively (Financial Year, 1909-10).
